Title	Screen	Description	Modes
30 games (first volume pack)			
Bouncing Fish		Try to stay afloat and collect glowing orbs to gain additional points. Beware! Avoid deadly spikes and obstacles by bouncing around the fish tank.	Single-player, multi-player: versus and team-vs mode available
Block the Bug!		Place stones to block movements of a bug. If the bug escapes the board, you lose. You start each stage with 3 stones in your hand - place them carefully!	Only single-player mode available
Fennec Fox Tower		Jump as high as you can. Watch out for snowball cannons and crumbling platforms. Collecting the "?" bonus is risky - it can either help you or disturb you on your way to the top.	Single-player and multi-player coop mode available
Mystical Totem		Use the right or left button to warm up the eskimo and chop the totem. Be careful! Avoid hitting the totem's wings and keep the eskimo from freezing."	Single-player and multi-player versus mode available

Title	Screen	Description	Modes
River Defense		Eliminate all the balls rolling on the screen. Group 3 or more balls of the same color to destroy them. When a ball reaches the end of the river, it's game over. Pay attention to extra balls. Some will pause the stream, others will give you a score multiplier. You can use a transparent ball to hit a ball of any color and all the balls sharing the same color will disappear from the stage.	Only single-player mode available
Memory		Watch carefully at the cards displayed on the screen. Once they are upside down tap the matching cards until you find all the pairs. Time to do it is limited., but you will get extra seconds after each pair found.	Single-player, multi-player: coop and team-vs mode available
Thor's Thunders		The power of Thor can be revealed only by magic. Use combination of buttons and proper left analog stick direction to create shapes similar to symbols appearing on giants' shields. Thor will save you twice from a giant's deadly touch, but a third one will send you to Valhalla.	Only single-player mode available
Super Vegan Anaconda		Eat all fruits. Control a snake head with horizontal axis of left stick. If you hit a wall or the snake itself, the game is over. Try collecting a potion as soon as it appears on the stage. It can make the snake smaller but it disappears after a few seconds!	Single-player, multi-player: versus and team-vs mode available

Title	Screen	Description	Modes
Meteors		You controls a ship that can rotate left and right, fire shots straight forward, and thrust forward. The objective is to destroy asteroids flying around.	Single-player, multi-player: versus, coop and team-vs mode available
Jellify Pufferfish		Control movements of a medusa by shift it to the left or right side of the screen. Collect blue orbs, and avoid green creatures. Crashing into any of them will end your game.	Only single-player mode available
Lava Golf		Put the ball into the hole. Use left analog stick to adjust the angle and power of your shot. You have a limited number of strokes on each level. Avoid landing the ball in lava and on the sand. Lava will make you repeat the shot, while sand makes it harder to hit the ball with accuracy.	Single-player and multi-player versus mode available
Alien Balloonists		Your job is to destroy enemy balloons by flying on them from above. With extra bonuses you can get temporary protection against enemy attacks or even remove all of them. Try to avoid alien spaceships as they will try to take you down with a laser gun.	Single-player, multi-player: versus, coop and team-vs mode available

Title	Screen	Description	Modes
Frosty Hockey		You need to shoot the puck into the opponent's goal. Outsmart your opponent with your reflex!	Single-player and multi-player team-vs mode available
Hopper Jump		Hop from stone to stone. You can jump either one stone forward or two. Avoid falling into the water or you will lose a few seconds climbing back on a stone. Your time is limited, but if you see a clock icon on a stone, try to collect it - you will get 3 more seconds!"	Single-player and multi-player versus mode available
Double Dodo Breakout		You control TWO dodo families at the same time! When you see an obstacle force your dodo to jump over it. Each dodo families has 3 ""lives"". If you collide with an obstacle for the 4th time, you lose.	Only single-player mode available
Hex Eggs		Your task is to place blocks on the stage so they create vertical, horizontal or diagonal line. You can always choose from 3 blocks available. Their color is not relevant.You may also receive extra blocks, which you can place on top of the other ones.	Only single-player mode available

Title	Screen	Description	Modes
Space Rockets		You need to stick as many rockets as you can in the moon. Rockets can't touch themselves or they will explode and it's a game over.	Single-player and multi-player versus mode available
Underwater Escape		Use a button with the color corresponding to the shark you want to eliminate. You can make darker colors by holding the 'Dark' button down before tapping the color of your choice. Use two colors simultaneously to mix them together. You can't let the sharks to get too close to you!	Single-player, multi-player: versus, coop and team-vs mode available
Rooster Romp		Your target is to to put all eggs into the baskets. Baskets placed higher gives you more points. There are 2 kinds of special eggs: gold will give you one additional try, and green which make controling rooster much harder for a short time after breaking.	Only single-player mode available
Bear Batallion		Enraged bears are extremely dangerous but can be suppressed by Viking's shield. Turn the Viking towards a bear when he is approaching him.	Single-player and multi-player coop mode available

Title	Screen	Description	Modes
Viking Defense		Use a catapult to protect your village from enemy ships. Set the viewfinder on a target for a shot. Stay alert, if a ship is marked with an exclamation point, it is ready to attack. You lose, if all cottages burn down.	Single-player and multi-player coop mode available
Find the Cube!		A die or two dice are quickly concealed under cups. Watch their movement carefully as your task is to point their current whereabouts.	Single-player and multi-player versus mode available
Hi-Tech Lines		Select a ball and set it in another place. It's possible only if there exists a connection path between the spots. Create a linear combination of 4 or more balls of the same color to make them disappear and score you points.	Only single-player mode available
Cannon Rescue		Clear your path from lizards! Use left analog stick to aim. When the cannon reaches a proper angle, press button to take a shot. Headshots (especially in a row) will give you additional points or even restore a life.	Single-player and multi-player versus mode available

Title	Screen	Description	Modes
Fruit Invaders		Move your cannon up and down to shoot down invader ships. Once you are hit three times, you lose. Don't let your enemies get to your pole, as it also counts as a hit. Try to shoot down supply crates, as they increase your shooting rate.	Only single-player mode available
Lava Bridge Builder		Press and hold button to build a bridge of a desired length. Match the length of the bridge to the gap between the platforms to cross unharmed. Try to make the bridge long enough to touch the green center of the platform, as it will score you more points	Single-player, multi-player versus and coop mode available
Deep Cosmic Trip		Press key to jump using your jetpack. Jump from planet to planet. Don't stay too long on one planet otherwise gravity will pull you into the ground and you will lose. Black holes swallow astronauts pretty quickly, so don't stay near them too long. Stars give 500 extra points and hearts restore health after an asteroid hit, however catching them can be very tricky, so consider the risks!	Only single-player mode available
The Last Siege		The player, controlling a Tank, must destroy enemy tanks in each level, which enter the playfield from the top of the screen. The enemy tanks attempt to destroy the player's base, as well as the human tank itself.	Single-player and multi-player coop mode available

Title	Screen	Description	Modes
Power Of Color		To control a firefly move lean left analog stick up and down, and right or left to adjust your speed. Slow movement will cost you energy, but it will be restored when speeding up.	Only single-player mode available
Flight of the Witch		Control witch altitude by moving her vertically. Goal is to avoid obstacles (like trees, pumpkins) and collecting apples. You start with 3 lives, each collision cost you one of them. You can increase game speed and number of granted points.	Only single-player mode available
